

The Northview curriculum is structured to provide every student with a strong problem solving background including the process as follows:

- 4.3.1 (a) Analyze a problem; (b) design and develop a solution; (c) implement the solution; (d) evaluate the results.
- 4.3.2 Northview fosters a sense of students embracing problem solving by understanding the problem solving process and trusting its value across different environments.
- 4.3.3 Northview provides students with the opportunity to apply the principles of problem solving in multiple areas of the curriculum.
- 4.3.4 Northview emphasizes the problem solving methodology of teamwork through collaboration and communication.
