

March 13, 2020

Dear Northview Families:

Information from various local, state and national agencies regarding the coronavirus (COVID-19) continues to evolve rapidly. While the governor's decision to close schools was made in the best interest of public health, we know that it also creates significant challenges for students, families, staff and the community. Our public schools are the center of our neighborhoods. This is certainly true in Northview.

What is also true is that Northview Public Schools will work actively over the next several weeks to continue to support vital services, such as opportunities for continued learning, free meals for students, and mental health support. We will be using our text/email alert system as well as our website and social media platforms to communicate important information.
