School Funding Information

COVID-19 has had a significant economic impact on communities around the world. It will also have a dramatic impact on school funding for the 20-21 school year. Our team is working hard to prepare a number of plans for the upcoming school year that maintain high quality instruction options for all students. To learn more about how public schools in the state of Michigan are funded, as well as the impact of COVID-19 on these funding sources, please review this series of short videos: [School Funding Videos](#). Please also reach out to me with any questions that you might have regarding school funding.
