

Hello Northview families,

Below is your Monday update for the week of July 27, 2020.

It is hard to believe that we are only a month away from the start of another school year. As mentioned in last week's update, we are working tirelessly to develop our back-to-school plan with details on every aspect of the learning options that will be available to Northview Public Schools families for the 2020-2021 school year. In putting together our plan, we have collaborated with neighboring school districts as well as the Kent County and Michigan health departments to ensure the health and safety of our students, families and staff.

Previously, we shared with you the return-to-school roadmap provided by the Governor's office. This 60+ page document has been thoroughly reviewed by our staff and is being used to guide the development of our plan. We acknowledge that not all families have time to review the plan in its entirety, which is why we have developed an infographic detailing the most pertinent information from the plan. You can view that infographic [here](#). There are multiple factors, many laws and countless guidelines that must be considered as our team creates our Return to School Plan. The document linked [here](#) provides an overview of the Plan development process.

As we continue to work diligently in preparation for the new school year, we want to reassure you that we are examining the different challenges and exploring all options for the well-being of our students, families and staff.

We will be presenting the back-to-school plan with you in our August 3 weekly communication. At that time, you can expect to see an overview of the following learning options:

- In-person DK-6 learning
- In-person 7-12 learning
- DK-12 virtual learning

Thank you again for your understanding and grace during this time, and for continuing to serve as our valued partner in your child's education. For specific questions related to back-to-school planning, please visit the district's COVID-19 page at <http://nvps.net/covid-19/>.

Sincerely,

Dr. Scott Korpak
Superintendent
