### Making a Mental Map of the Region

Draw an outline map of Latin America on the opposite page or on a separate sheet of paper. Add a compass rose to your map, showing where north, south, east, and west are. Then draw and label these features where you think they are located:

- the equator
- other regions or bodies of water that you think lie north, south, east, and west of this region
- the area(s) that you think have a humid, tropical climate
- the area(s) that you think have a cold, polar climate
- the area(s) that you think have the greatest population
- the area(s) that you think have the smallest population

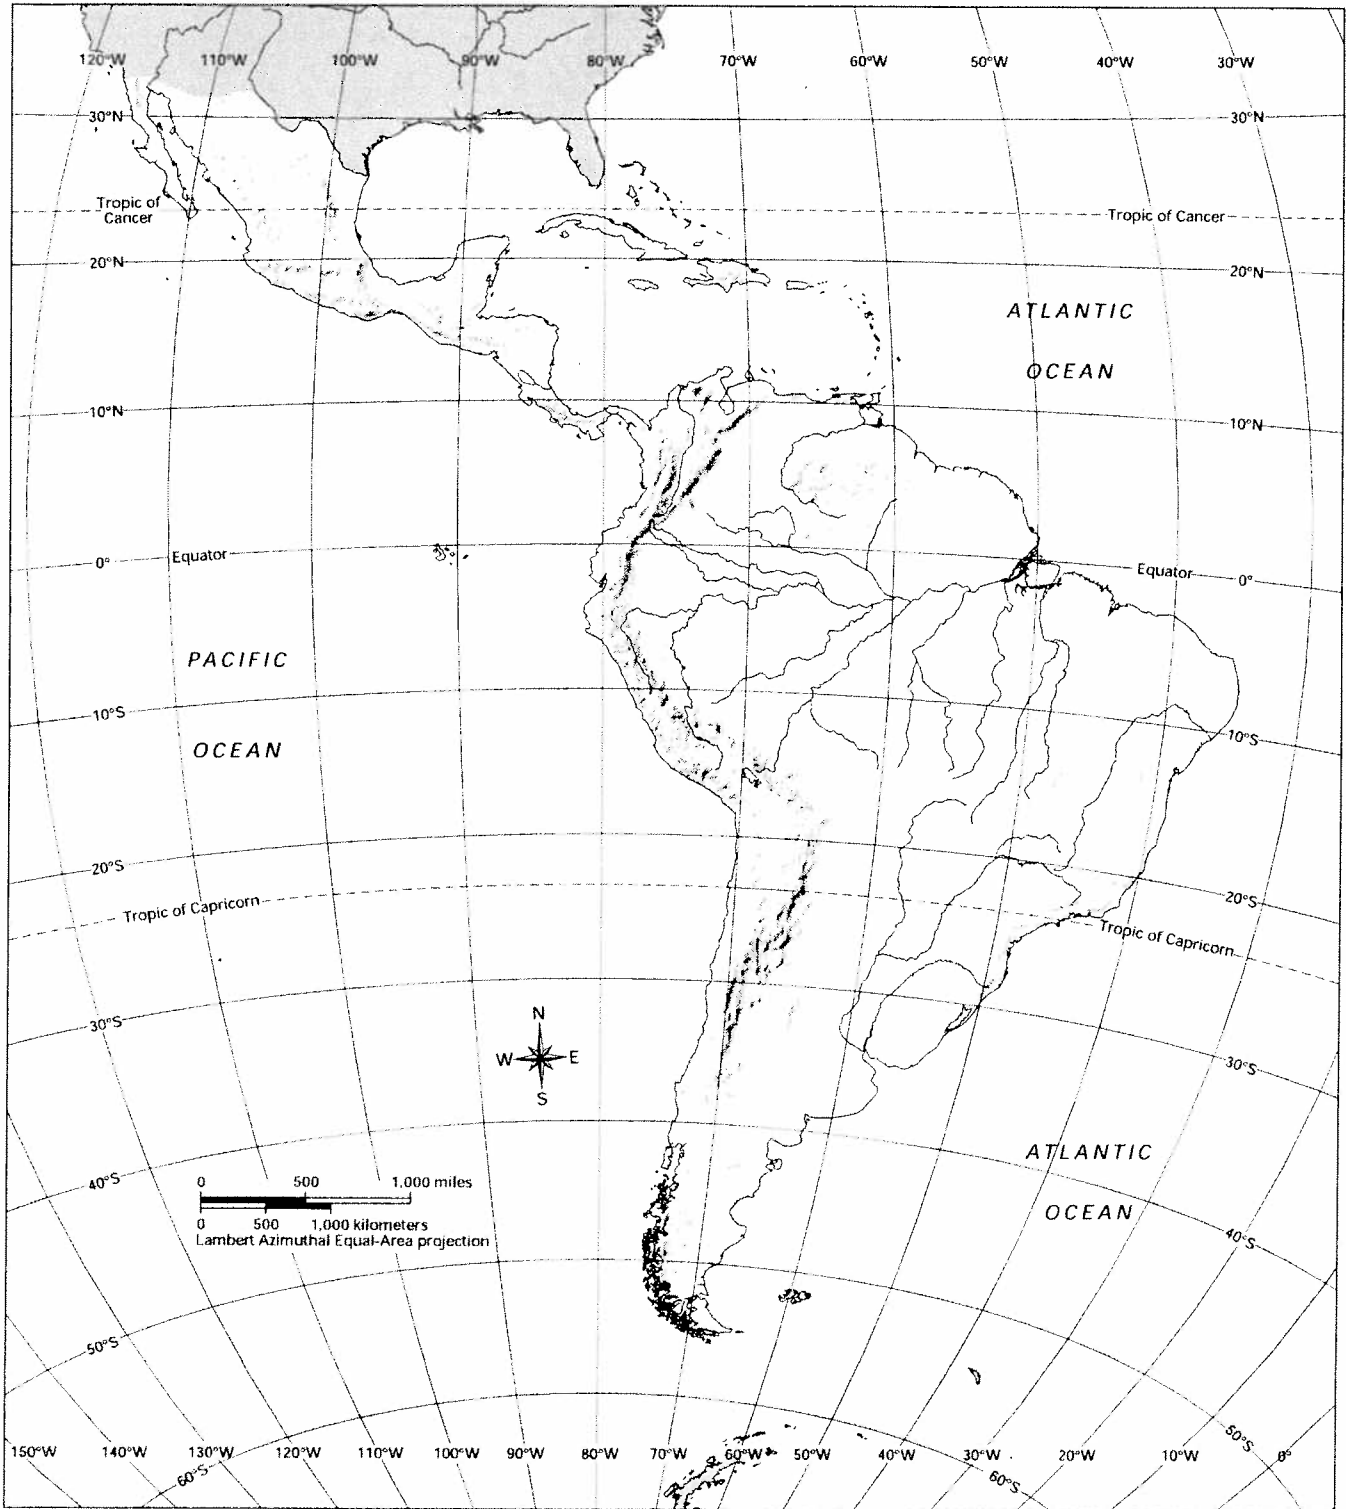

## LATIN AMERICA MAPPING LAB

Draw your mental map of Latin America below.

A large, empty rectangular box with a thin black border, intended for students to draw their mental map of Latin America. The box occupies most of the page below the instruction.

## Challenge 5 Using Maps to Analyze a Field Photograph

We think the field photograph best matches Location \_\_\_\_ .

### Supporting-Evidence Statements

1. From the \_\_\_\_\_ map, we learned that this location
