

Hello Field School Families,

My name is Christina Hayford and this is my second year with Field School. I am so excited to begin learning with your students in just a few short weeks. I love teaching first and second grade and I am looking forward to our upcoming adventures. I recently graduated from Loyola University Chicago with my Master's in Education and prior I studied Psychology and Education Philosophy at the University of Notre Dame. I moved to Grand Rapids last year and have been getting my footing in the city and at West Oakview.

I'm proud to be a part of the Field School Team and love working alongside teachers and students who are passionate about environmental care and sustainability.

Attached you will find our supply/gear list. My hope this year is to be outside as much as possible with your students. The supplies listed will help them be the most comfortable in any weather. If you have any questions or concerns with the supplies listed, please reach out.

Again, I am looking forward to meeting you and your students and can't wait to start our adventures together.

-Christina
